

an introduction to manifolds second edition - *preface to the second edition this is a completely revised edition with more than 400 pages of new material scattered throughout in keeping with the conventional meaning of chapters and*, **calabi yau manifold wikipedia** - *in algebraic geometry a calabi yau manifold also known as a calabi yau space is a particular type of manifold which has properties such as ricci flatness yielding applications in theoretical physics particularly in superstring theory the extra dimensions of spacetime are sometimes conjectured to take the form of a 6 dimensional calabi yau manifold which led to the idea of mirror,* **frchet derivative wikipedia** - *in mathematics the frchet derivative is a derivative defined on banach spaces named after maurice frchet it is commonly used to generalize the derivative of a real valued function of a single real variable to the case of a vector valued function of multiple real variables and to define the functional derivative used widely in the calculus of variations,* **gompertz non euclidienne wikipedia** - *henri poincaré la science et l'hypothèse commente ce texte de la façon suivante ce schéma explicite une approche intuitive de la gompertz non euclidienne proposée par poincaré les êtres qui habitent dans ce monde ne peuvent pas savoir qu'ils se rapetissent car s'ils se mesurent avec un mètre ruban le mètre ruban galement se rapetisse nous savons qu'ils*
